WE MAKE STOPPING A SAFE EXPERIENCE

Hansa Parts® Premium Brake Pads & Brake Shoes offers maximum driving comfort to exclusive standards.

Specially designed to suit the needs of all passenger cars, light and heavy trucks, **Hansa Parts®** Premium Brake Pads & Shoes set the benchmark in premium brake technology.

Specially formulated low metallic material gives the driver full control and confident braking no matter while travelling in the city or on the highway.

Hansa Parts® Premium Brake Pads & Shoes offer high friction dissipation to enhance the brake performance during a short distance stopping in peak hour driving and high speed touring. Small particle size and fine raw material are used to optimize braking noise to achieve extremely low noise levels operation and comfortable experience.

“Safety” is our top priority when it comes to developing and manufacturing brake products. It is our mission as a brake expert to ensure “safety and peace of mind” for our customers around the world.

FEATURES, BENEFITS & MANUFACTURED STANDARDS
